

PRINCE2®

PRINCE2 is internationally recognised as the leading 'best practice' project management approach within government and the private sector; leading organisations have already introduced PRINCE2 world-wide. It addresses the needs of management by providing the governance structure for effective project management and control.

The focus is on the key principles, processes, activities and techniques needed for successful project management, providing those responsible for planning and managing projects with a structured and practical approach for projects of all sizes and types.

PRINCE2® is a Registered Trade Mark of the Office of Government Commerce in the United Kingdom and other countries; The PRINCE2 Swirl logo™ is a Trade Mark of the Office of Government Commerce.

PRINCE2® OVERVIEW

This seminar provides a brief but comprehensive overview of the PRINCE2 method. It includes explanation and discussion of the seven principles, seven processes, seven themes, and techniques, central to the PRINCE2 method. It also allows discussion of the benefits, risks and other implications of adopting PRINCE2 to facilitate the delivery of projects of all types. It can be adapted for large and small groups, and different timeframes, depending upon the requirements of the customer.

Course Objectives

This course will enable delegates to:

- Understand the principles, processes, activities, themes and techniques within the PRINCE2 project management method
- Understand the organisation structure of a PRINCE2 project
- Appreciate the responsibilities of the PRINCE2 project roles
- Understand how they fit within a PRINCE2 project

Who Should Attend
