TCC

TRAINING AND CONSULTANCY

SCRUM

Scrum is a simple yet incredibly powerful set of principles and practices that help teams deliver products in short cycles, enabling fast feedback, continual improvement, and rapid adaptation to change. As the leading Agile development framework, Scrum has predominantly been used for software development, but it is also proving to be effective in efforts far beyond.

Certification in Scrum is provided by the Scrum Alliance - a membership organization that encourages and supports the widespread adoption and effective practice of Scrum.

SCRUM IN ONE DAY

The Scrum In One Day course is an interactive, immersive one day event, which allows delegates to explore the Scrum framework and understand why and how it produces excellent results in complex situations. It covers the principles and practices, team roles, events and artifacts defined in Scrum in an interactive and engaging way.

Course Objectives

This event will enable delegates to:

- Understand the concepts and benefits of Agile development
- Understand the Scrum framework, including: Roles; Product and Sprint Backlogs; Increments
- Understand the purpose and timing of Scrum events (Daily Scrums, Sprint Planning, Sprint Reviews, Sprint Retrospectives)
- Communicate the ideals of Scrum to key stakeholders

Who Should Attend

Those who are likely to become involved in Scrum / Agile, including:

- Senior Stakeholders
- Team Leaders
- Development Team Members: Business Analysts; Solution Developers/Testers/Designers
- Product/Process Owners and Managers
- User Representatives and Subject Matter Experts
- Quality Assurance and Quality Control Managers

Course Duration: 1 day

Course Code: SIOD
